SIDEWALK REPLACEMENT LOAN APPLICATION

Owner(s) name(s): _____

Project address: _____ Troy, New York

Telephone: Home # :_____   Business # _____

Description of sidewalk project: (attach site plan) _____

_____

_____

I have received and read a copy of the City of Troy Sidewalk Replacement Program Guidelines and agree to comply with all requirements contained therein.

I understand that upon approval of the proposed work specifications by the City of Troy, I am committed to entering into a loan agreement with the City of Troy within 30 days or this application will be denied.

I understand that DPU personnel will be available to perform an inspection into my property to assist in making a determination as whether or not my existing water service is lead. I also understand that if it is lead, that the City recommends that I consider having this line replaced at my own expense now while my sidewalk is already under construction, thereby eliminating the need to excavate my new sidewalk at a future date. Whether or not I decide to replace any lead lines at this time will not have any affect in the approval process of my application.

I understand that the City recommends that I not utilize any salt-based products to de-ice the new sidewalk during the first winter season and failure to comply may void the Contractors workmanship guarantee.

I agree to water daily, or as needed, any newly seeded areas adjacent the new sidewalk until growth is established.

I further release the City of Troy from all liabilities, which may arise because of this project.

I certify that I am the legal owner occupant of the property described above and that all information in this application and in the attached documentation is true and complete to the best of my knowledge.
